Technology Use Agreement (Home Use)

Using technology devices provided by District 45 shall always be in keeping with the District's goal of educational excellence and student achievement. District 45 owned computing devices, such as laptops, Chromebooks, iPads and other devices ("Devices"), are a part of the District's curriculum and instructional program and serve to promote educational excellence by facilitating resource sharing, innovation, and communication.

Students and their parents/guardians are expected to adhere to the following expectations. Students will not be assigned a Device unless this Agreement is signed by the student and their parent/guardian. If the Student or parent/guardian fails to adhere to any of the requirements of this Agreement, the District may revoke the student's ability to use the Device.
